Explore the Quirks of History

Mona Lisa

- The Mona Lisa was painted utilizing oil paint on a poplar wood board, utilizing a strategy that left no obvious brush marks.
- Her smile, which is popular for its fascinating nature, is a mysterious part of the painting.
- The dimensions of the painting are 53cm X 77cm or 21in X 30in.
- According to the modern face recognition software Mona Lisa is 83% happy, 9% disgusted, 6% fearful and 2% angry in the painting.
- The painting as present is situated at the Louver museum in Paris, France where the painting has its own room. It's been on display since 1797.
- More than 6 million people visit the artistic creation at the Louver every year. And a generally people spends 15 seconds looking at the painting.
- The painting became even more popular when it was stolen from the Louver in 1911.
- While the painting was missing, 6 wealthy Americans were tricked into paying up to \$300,000 each for the fake Mona Lisa painting.
- Some people think that the painting was made in the picture of Lisa Gherardini, however others believe that it's really a self-portrait of Leonardo da Vinci himself.

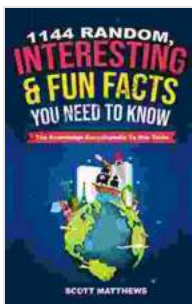

- The Great Wall of China is not actually one wall, but a series of walls and fortifications that were built over centuries.
- The Statue of Liberty was originally supposed to be called "Liberty Enlightening the World."

- The first McDonald's restaurant was opened in San Bernardino, California in 1940.
- The first computer was called the Electronic Numerical Integrator and Computer (ENIAC), and it weighed over 60 tons.
- The first text message was sent in 1992 and it said "Merry Christmas."
