

# Prepare For The Worst - Superman Not Coming

Our world is becoming increasingly complex and dangerous. Natural disasters, pandemics, and political unrest are becoming more common. It is becoming increasingly clear that we cannot rely on Superman to come and save us. We need to be prepared to take care of ourselves and our families.

One way to do this is to learn how to survive in the wilderness. This does not mean that you need to become a survivalist or live off the grid. It simply means that you should have the knowledge and skills to survive in the event of an emergency.

In this book, you will learn:

- How to find food and water in the wilderness

- How to build a shelter
- How to start a fire
- How to navigate with a map and compass
- How to treat common injuries

This book is not a comprehensive guide to survival. It is simply a starting point. The best way to learn how to survive in the wilderness is to practice. Go camping, hiking, and backpacking. Learn from experienced survivalists. And most importantly, be prepared to adapt to whatever challenges you may face.
