1. Teach them meditation and mindfulness
Meditation and mindfulness will be key to helping your teen with relaxation and stress reduction. They don't even have to meditate for very long; just 25 minutes of mindfulness and meditation with one of our outstanding instructors can turn your teen's whole week around.

2. Practice yoga together as a family

The practice of yoga has been known to have amazingly positive effects on those who struggle with stress. Help your teen reap the benefits of yoga by practicing with them.

3. Stock better foods in the fridge

A healthy body means a healthy mind. Feed your teens nutritious foods and it will help their stress levels.

4. Enforce less screen time

Technology is useful for so many things. But when teens spend too much time in front of screens, it can drain their time and harm their focus. Both of these things are certainly not helpful for reducing stress.
