The author, Anya Fernald, was born into a farming family in North Dakota. Her parents were hardworking and devoted to their land, but they also struggled financially. As a child, Anya witnessed the hardships of farm life firsthand. She saw her parents struggle to make ends meet, and she experienced the pain of losing loved ones to accidents and illness.

Despite the challenges she faced, Anya found solace in the beauty of the natural world. She loved exploring the fields and forests around her home, and she developed a deep connection to the land. She also found comfort in her family, and she learned the importance of community and resilience.

As Anya grew older, she began to question the values that had been instilled in her. She saw how the pursuit of wealth and success often came at the expense of human happiness and environmental well-being. She also witnessed the devastating effects of climate change on her family's farm.

Anya's journey is both personal and universal. It is a story about growing up, finding one's place in the world, and coming to terms with the complexities of life. It is also a story about the importance of family, community, and resilience.

"Weeds, Farm Daughter, Lament" is a beautifully written and deeply moving memoir. It is a must-read for anyone who has ever struggled with the challenges of life, and for anyone who cares about the future of our planet.
